SAW	AR

Easter Eggs - Leavenworth

Kill your instructor while doing basic marksmanship training (the very first mission possible). After being sent to Leavenworth activate "ghost" cheat and check out all the surrounding cells. Not only will you find the [DEV] team sprays but also some other miscellaneous pictures and sprays. There is even a cell with a mutated angry bass that has a lazer on its head (Austin Powers reference).

Record Video in Game

In multiplayer press [TAB] or ~ buttons and type in DemoRec (Name Of file). This will start to record your actions in the game. To stop the demo from recording. Press [Tab] or ~ button and type in stopdemo to stop the demo recording process.

If you know any cheat codes that we don't have please let us know and we will add them to the list so all players can enjoy them.
